The two background bullets (one on ocean disposal and one on PV Shelf is eating up half the page!!!)

I think montrose and our issues should be separate papers. I will push for that. We always sorta treat PV that way anyway.

Hi Judy.

I'm on leave this morning, but wanted you to see this given the short deadline. Not sure how to approach this if all three issues need to be in one paper. Bc would not be easy if all has to be on one page. If this is for a budget hearing, not sure we need to talk about the shelf as much since we have our own money and it's also not that controversial by itself. So, maybe someone can talk montrose if necessary and then we quickly talk about PV as a way to connect to the drums issue. And stick to higher level messages from the Feinstein letter.

So, if you can start on our piece, then I can edit and I can also connect with Kelly on how to combine with montrose.

Thanks.

We have an urgent request to put fact sheets together. For our branch, we need to develop the following:

Anaconda, NV
PFAS Luke Airforce (need to coordinate with Enforcement and Water; they may already be working on it)
Montrose, PV Shelf, Dumpsite (John to coordinate with Kelly)
Hunters Point Naval Shipyard
Fact sheets are due to Enrique and John mid-day Tuesday, 3/30. If possible, please get them to me by COB Monday, 3/29. Please let me know if you have any questions. Thanks. Angeles

Subject: Budget Hearing - Regional Site-Specific Fact Sheets (OLEM)

Importance: High

Regional Public Affairs Directors, Regional Comptrollers, SEMD Lead Region, LCARD Lead Region, and ECAD Lead Region,

Attached is the annual budget hearing fact sheet call memo. Some of you may have received this already, so apologies for the redundancy. As noted in this year's guidance, OLEM (with OECA) will be coordinating with the regions to develop the site-specific fact sheets. Regions will draft and OLEM (and OECA) will do final review and OLEM will upload. To prepare and expedite, we are asking for the following for the OLEM site-specific fact sheets:

- The PADs, in coordination with the SEMD, LCARD, and ECAD Directors in their region, review the attached list of site-specific fact sheets (see page vi of Attachment B) and **update the list based upon the newest committee membership (attached).**
- Please **send to Meredith Sebring and me the updated list of sites for which you plan to draft fact sheets – please send by COB tomorrow, March 26th.** We

will be using this to track the incoming information and update the master list that OCFO/OCIR are maintaining.

- Please start to work on the fact sheets ASAP. While the memo states that fact sheets are due from regions to HQ on April 2, **we are asking that you send the fact sheets to Meridith Sebring and me by March 31st**. There are a lot and all of them are reviewed here in the OLEM IO (and program offices) and depending on the content, reviewed by OECA as well.
- While you all know your regions and the Congressional interest best, please try to limit the fact sheets to those that are most likely to be raised during the committee hearings and please use a general rule of thumb of interest within the last year. Please note the Congressional interest on the fact sheet.
- Please keep this to one page – we will edit it down, if you don't.
- On behalf of OECA, we are asking that you ensure that your ORC review any OLEM site-specific fact sheet that has enforcement information or implications.

If you have any questions, please feel free to call me or Meridith Sebring.

March 31st, if at all possible.

Jennifer M. Wilbur
